

# Section code

## *REST APIs with Flask and Python*

You may access the code in this section here: <https://github.com/schoolofcode-me/rest-api-sections/tree/master/section5>.

Remember, it's always a great idea to type the code, rather than copy-paste it.

Write the code alongside the video, and use the code above to check for mistakes and to refresh your memory.

Kind regards,

Jose
