

Security e-book

REST APIs with Flask and Python

This section contains some server set-up and advanced operations, so as well as the videos I've created an e-book to help out in case anything goes wrong.

You can access the e-book [here](#).

If the link doesn't work, please copy and paste the following link into your browser:

[https://school-of-code.gitbooks.io/rest-apis-with-flask-and-python/
content/domains-and-https/what-is-a-domain.html](https://school-of-code.gitbooks.io/rest-apis-with-flask-and-python/content/domains-and-https/what-is-a-domain.html)

Kind regards,

Jose
